

David Bunn

I help investment and finance teams move faster — pairing the rigor of **corporate finance and audit** with hands-on **AI engineering** to turn manual reporting into automated data products. 9+ years across strategic finance, FP&A, and US GAAP audit; now building the AI workflows modern investment teams run on.

📍 Foster City, CA

80%

Less manual data-extraction time via AI workflows

\$120M

Series A round supported, end-to-end diligence

\$25B+

Market-cap client led on US GAAP integrated audit

35+

Funds owned for revenue & fee modeling

01 Professional Experience

Stockbridge Capital Group

San Francisco, CA

Data & Innovation Associate — CTO Team

Jan 2026 — Present

- ◆ **AI-Powered Workflows:** Built an AI Resource Hub and automated reporting workflows with Claude Code and Copilot Studio, cutting manual data-extraction time by **80%** for capital-markets teams.
- ◆ **Zero-to-One Market Diligence:** Developed a Market Selection Tool leveraging macro-economic data and LLMs, giving investment teams instant competitive assessments and strategic roadmaps for new acquisitions.
- ◆ **Geospatial Dashboards:** Built a dynamic, interactive Asset Map Dashboard plotting all owned assets across markets — teams drill into asset-manager and tenant detail and resize market bubbles on the fly by square footage, rent PSF, and more.
- ◆ **Strategic Coordination:** Key contact for the Acquisitions AI project, managing 3rd-party vendors and internal business users across data cleansing and front-end app development.

Finance Associate

May 2023 — Dec 2025

- ◆ **Revenue & Fee Modeling:** Owned complex revenue projections for **35+ funds** plus corporate expense forecasting — the "source of truth" for the CFO and Executive Committee.
- ◆ **Data Architecture:** Redesigned end-to-end financial reporting flows — from source systems to board-ready presentations — using Power Query and AI tools to improve speed and accuracy.
- ◆ **Executive Communication:** Prepared review materials for the Executive Committee and external shareholder meetings, distilling complex models into clear strategic narratives.

Major League Cricket

San Francisco, CA

Senior Finance Manager

May 2021 — Apr 2023

- ◆ **Strategic Finance & Diligence:** Helped execute a **\$120M Series A** round; led 10-year cash-flow forecasting and group financial-statement preparation across 12 entities.
- ◆ **Operational Execution:** Scaled the finance function from the ground up, implementing company-wide procurement and approval frameworks through a period of high growth and ambiguity.
- ◆ **Investor Relations:** Delivered financial data and written strategic commentary for investor reporting packages.

PricewaterhouseCoopers

San Francisco & Johannesburg

Manager / Senior Associate

Jan 2016 — Apr 2021

- ◆ **Analytical Rigor:** Led US GAAP integrated audits for a **\$25B+ market-cap** ecommerce client; managed multi-disciplinary teams across IT, valuations, and tax.
- ◆ **Project Management:** Consistently rated **Tier 1 ("Exceeds Expectations")** for managing complex audit phases, budgets, and reporting directly to CAOs.

02 Selected AI Projects

AI Resource Hub & Reporting Automation

80% less manual work

Internal hub plus automated reporting workflows that pull, clean, and format capital-markets data on demand — replacing hours of manual extraction for the investment teams.

Claude Code Copilot Studio Power Query

Market Selection Tool

Zero-to-one diligence

An LLM-driven tool that fuses macro-economic data into instant competitive assessments and strategic roadmaps, giving investment teams a fast read on new acquisition markets.

LLMs Macro Data Python 3

Asset Map Dashboard

Portfolio-wide visibility

A dynamic geospatial dashboard plotting every owned asset across markets — teams drill into asset-manager and tenant detail and resize market bubbles live by square footage, rent PSF, and more.

Power BI (DAX) Geospatial

Acquisitions AI Program

Vendor & stakeholder lead

Key contact coordinating 3rd-party vendors and internal business users across data cleansing and front-end app development for the firm's acquisitions AI initiative.
